Markle Collection

Markle is a cloudy upholstery velvet that comes in 36 colors. The fabric is suited for any type of project as it is fire retardant as well as water repellent. It has a high Martindale and a pilling score of 5 (on a scale of 5).

As an anecdote: when launching the collection, it was the royal wedding of prince Harry with Megan Markle, the American actress that featured in Suits. And that's where the name comes from.
