## CLEANING AND MAINTENANCE INSTRUCTIONS

We know how important it is for you to be able to clean your sofa fabric .  
 Thanks to the **AquaClean technology** incorporated into this fabric,  
 you can use just water to clean occasional stains like wine, coffee, food, etc.,  
 and also the more stubborn stains on parts of the sofa that cannot be  
 uncovered for cleaning.

( To completely remove the toughest stains like permanent markers,  
 add water and a dab of soap. )

It is advisable to use a vacuum regularly to remove dust.

Clean with water, in three easy steps:

1. Remove any excess product that has spilled on the fabric.
2. Apply water to the stain, either directly or using a paper tissue or an absorbent cloth, without making the upholstery too damp. Wait for a few seconds.
3. Press the stain with the paper tissue or cloth, then gently rub the fabric with circular strokes. If the stain does not disappear completely, repeat the process as many times as necessary.
